

I. User Stories (3 points)

- **User Story Template:** As a <role>, I want <goal> [so that <benefit>]

ID	User Story Name	User Story Description	Priority	Estimated effort (hours)
1	Choose a board size	As a player, I want to choose the board size so that I can play on the size I want.	A	1
2	Choose the board type	As a player, I want to choose the board type so that I can play the type of Solitaire I want	A	2
3	Start a new game of the chosen board size and type	As a player, I want to start a new game with my selected board size and type so that I can start playing.	A	2
4	Make a move in a game	As a player, I want to make a valid move so that I can remove a marble from the board.	A	4
5	A game is over	As a player, I want the game to tell me when there are no more valid moves so that I know the game is over.	B	3

II. Acceptance Criteria (AC) (12 points): Add/delete rows as needed.

User Story ID and Name	AC ID	Description of Acceptance Criterion	Status (completed, toDo, inProgress)
1. Choose a board size	1.1	AC 1.1 Choose a size Given the Solitaire game is open When the player chooses a board size Then the selected board size should be shown	Todo

	1.2	AC 1.2 Use the board size Given a board size has been selected When the player starts a new game Then the game should use the selected board size	Todo
2. Choose the board type	2.1	AC 2.1 Choose the board type Given the Solitaire game is open When the player selects a board type Then the selected board size should be shown	Todo
	2.2	AC 2.2 Use the board type Given a board type has been selected When the player starts a new game Then the game should use the selected board type	Todo
3. Start a new game of the chosen board size and type	3.1	AC 3.1 Start a new game Given the player has selected a board size and type When the player clicks New Game Then a new board should appear using those choices	Todo
	3.2	AC 3.2 Set up the board Given a new game has started When the board appears Then the center hole should be empty and the other board positions should contain marbles	Todo
4. Make a move in a game	4.1	AC 4.1 Make a valid move Given valid move is available When the player makes the move Then the marble should jump over another marble into an empty space	Todo
	4.2	AC 4.2 Remove the jumped marble Given the player makes a valid move When the jump is completed Then the jumped marble should be removed	Todo

5. A game is over	5.1	AC 5.1 Game can continue Given the game is being played When there is a valid move available Then the player should be able to continue playing	Todo
	5.2	AC 5.2 No more moves Given the game is being played When there are no valid moves left Then the game should tell the player that the game is over	todo

Today 10:55 PM

I want only two user stories and two of their respective acceptance criteria

Yes. If you only need **two user stories**, I would keep them very simple and choose two of the most important parts of the Solitaire game.

I. User Stories

ID	User Story Name	User Story Description	Priority	Estimated Effort (hours)
1	Start a new game	As a player, I want to start a new game so that I can begin playing Solitaire.	A	2
2	Make a move	As a player, I want to make a valid move so that I can remove a marble from the board.	A	3

User Story 1 — Start a new game

AC 1.1 — Start the game

✦ Upgrade ⬆ Share

Given the Solitaire game is open
When the player clicks **New Game**
Then a new Solitaire board should appear.

Status: ToDo

AC 1.2 — Set up the board

Given a new game has started
When the board appears
Then the center hole should be empty and the other positions should have marbles.

Status: ToDo

User Story 2 — Make a move

AC 2.1 — Make a valid move

Given there is a valid move available
When the player makes the move
Then the marble should jump over another marble into an empty space.

Status: ToDo

AC 2.2 — Remove the jumped marble

Given the player makes a valid move
When the jump is completed
Then the jumped marble should be removed.
